

## OUR MISSION

The mission of the High School of Art & Design is to inspire, educate, and fully prepare our gifted students to become exceptional artists. Through a unified curriculum that incorporates a broad spectrum of disciplines integrating art, technology and academics, our students are prepared to go on to college and careers with industry-standard mastery in the major of their choice. With a commitment to promoting strong ethical values and professional demeanor, we strive to foster a sense of community among our students, staff and parents. We are dedicated to engendering students' productive, creative and innovative participation in the world of visual arts as concerned and caring citizens of the global community.

### HSAD WBL / INTERNSHIP PROGRAM

The High School of Art and Design has the largest and most successful Career and Technical Education (CTE) High School internship program in the city! We placed over 200 students at more than 100 worksites over the past year and counting. We connect with our community and continue to build positive relationships with companies around the city for future students and graduates. Our internship program also allows our school to be CTE state certified.
